Contact Fungicides

Agrisel Chlorosel® Pro 720 & DF are both high quality, cost efficient, chlorothalonil fungicides. Both formulations of Chlorosel are produced from high quality technical and contain Agrisel's tested and approved super surfactant and wetting agents, for superior wetting and sticking on plant surfaces. Chlorosel® Pro formulations are EPA registered and are labeled for over 100 plant, turf and crop uses.

Key Product Benefits:

- Provides highly effective disease control
- Fully labeled for agricultural crops, turf, ornamental and professional uses, which reduces the need for duplicate inventories
- Superior rainfast formulations containing "AGRIFACT"
- Broad Spectrum disease and fungus control on over 100 different crops and non crop uses
- Economical to use and cost effective
- Convenient package sizes - 2x2½/gallons-Pro 720 and 4x5/lb Jugs-Pro DF
