

What Is Consan?

Consan Triple Action 20 is a multi-function indoor/outdoor fungicide, algaecide, mildewcide, disinfectant, deodorizer and sanitizer for home and garden.

Completely water soluble as well as biodegradable, CONSAN is labeled and EPA registered for use outside your home for disease control on ornamental plants, grasses and trees, and inside your home for nearly everything that needs to be sanitized, disinfected or deodorized.

Super Concentrate

Consan Triple Action 20 is highly concentrated and must be diluted before use. Consan Triple Action 20 is a contact control product, meaning that the mixed solution or spray containing Consan must come in contact with the pathogen you wish it to control.

Just 1.5 teaspoons
in a gallon of water
gets most jobs done,
inside and out!

Consan Triple Action 20 is an EPA registered product and must be used in accordance with its labeling. Please follow all instructions carefully, use appropriate safety precautions, and wear recommended safety clothing as instructed on the product label.

This brochure is designed to advise the approved and recommended applications for Consan Triple Action 20, and is not intended to provide precise application, dilution, or safety instructions.

Brandt Consolidated, Inc. warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.

Fungicide/Algaecide for
Home & Garden Inside & Out!

Consan[®]
Triple Action 20

Outdoor Lawn & Garden

Shown below are some of the most popular uses for CONSAN'S lawn and garden applications.

Most application rates for CONSAN as a garden fungicide are only 1.5 teaspoons in a gallon of water, making it very inexpensive to use!

Some of the most popular garden applications are:

Lawns

Brown Patch, Leaf Spot, Fairy Ring

Crepe Myrtles

Powdery Mildew

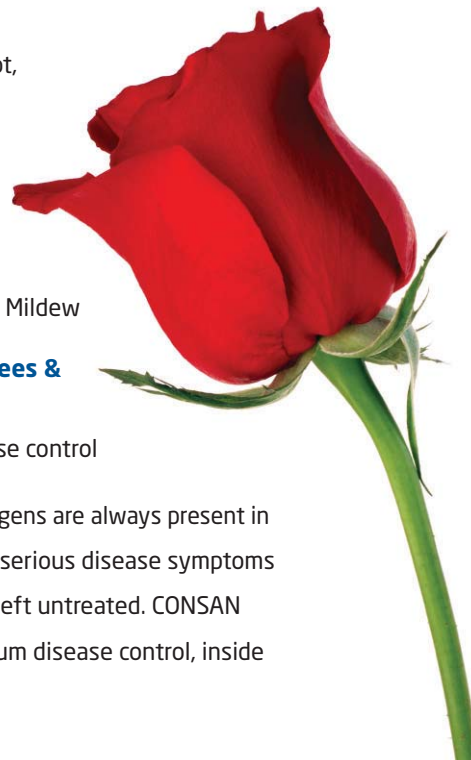

Roses

Black Spot & Powdery Mildew

Flowering Plants, Trees & Ornamental Plants

Broad spectrum disease control

Disease causing pathogens are always present in the environment, and serious disease symptoms become visible when left untreated. CONSAN provides broad spectrum disease control, inside and out!

Consan Inside the Home

Shown below are some great applications for CONSAN inside the home. An EPA registered disinfectant, sanitizer, and deodorizer, CONSAN is great for:

Disinfecting toilet areas and showers

Flood damage deodorizing and restoration

Mold remediation

Diaper pail disinfection and deodorizing

All hard surface sanitizing

Fire and smoke damage restoration

CONSAN kills odors at their source. Remove wet or burnt areas, then spray CONSAN on all adjacent areas to aid restoration process.

For a complete list of approved applications for CONSAN, please check the CONSAN website at www.consan.biz or the product label.

Outdoor Non-Plant Applications

Shown below are some of the non-plant applications for CONSAN. Great as a disinfectant and algaecide for:

Birdbaths, greenhouses, cutting tools, flower pots and algae covered hard surfaces

For best results, clean hard surfaces or tools first with soap and water, then apply CONSAN to kill the algae and fungus that remain.

CONSAN is ideal for all outdoor hard surfaces. Kills live organisms and spores too.

Other Registered Plant Applications for Disease Control

African Violets, Trees & Shrubs, Bulbs & Rhizomes, Seeds & Seedlings, Flowering Annuals, Orchids, Rubber Plants, Dogwoods, Calendulas, China Asters, Chrysanthemums, Lilac, Live Oak, Dahlias, Snapdragons, Ferns, Begonias, Hollyhock, Iris, Hawthorn, Cut Flowers, Ash & Sycamore.
