

Abyss™ Containment Canister

***Your cleaning system is only as good as its capacity.
Experience the largest capacity canister on the market!***

The Abyss™ Containment Canister's innovative design provides the largest debris capacity on the market! The canister captures debris and channels it to the bottom of the basket minimalizing flow loss for maximum efficiency. The innovative design keeps heavy debris from interfering with the operation of your pool equipment and filtration system while maintaining steady water flow.

Combined with the Blue Square™ Q360™ In-floor cleaning system and Eclipse™ Drain, your pool will have the maximum cleaning and debris removal capacity in the market while providing energy savings and less time on maintenance giving you more time to enjoy your pool. The Abyss™ Canister can also be used independently to enhance any pool cleaning system.

- High Capacity basket design
- No unsightly deck lids
- Conveniently located by pool equipment for easy access
- Designed for maximum flow while allowing for high volume debris
- Easy access winterizing plug
- Clear, pressure safe, lid
- Sized for 2" and 2 ½" suction lines
