About NetHope

NetHope empowers committed organizations to improve the world through the power of technology. NetHope, a consortium of nearly 60 leading global nonprofits, unites with technology companies and funding partners to design, fund, implement, adapt, and scale innovative approaches to solve development, humanitarian, and conservation challenges. Together, the NetHope community strives to transform the world, building a platform of hope for those who receive aid and those who deliver it.

Why Sponsor?

The NetHope Global Summit is a unique opportunity for leaders across sectors to network, learn, collaborate, and get inspired. Last year, the sold-out event attracted more than 600 attendees, representing 30 countries. They included nonprofit CEOs, chief information executives, senior level IT experts, private sector technologists, and other partners.

NetHope Members represent nearly 60 of the world’s leading global nonprofits delivering over 60 percent of all annual, international, non-governmental aid. The NetHope Global Summit offers sponsors and partners a unique, targeted, and more intimate opportunity for brand exposure, networking, and engagement with nonprofit leaders.

To find out more, please contact our NetHope Global Summit Sponsorship Team at summit@nethope.org.
