SCIENCE OF WATER

How well do you know H₂O? In this class, students will learn about the amazing science behind walking on water. Can you make it happen? Junior scientists will create their own customized water rocket from the power of water and will learn about water in our environment, explore the physical and chemical properties of water, and discover how scientists harness water's great power. Join us for our super duper water rocket launch part at the last day of the session!

Time: 2:25 PM - 3:25 PM (K-6)

Fee: \$140

No Class: 5/28/2018

CULINARY ARTS

Our ALL STAR culinary art classes seek to explore kid-friendly versions of recipes and creations made popular by chefs and restaurateurs worldwide. ALL STAR culinary classes create an inspired, fresh and fun foundation for the hopeful chefs of tomorrow, working on kitchen fundamentals like baking, sautéing and more. From savory dishes to sweets, STAR students will try their hand at it all! Students will explore different foods while learning cooking skills.

Time: 2:25 PM - 3:25 PM (K-6)

Fee: \$140

No Class: 5/28/2018

TECHNOLOGY: SPY KIDS

Spies need gadgets. Not just any gadget, but cool gadgets. And nothing is cooler than learning how to build and use gadgets just like the spies in the movies. In this exciting hi-tech class, students will learn how to use kid-friendly electronics and block-based coding to build a new gadget each week. Budding electronic engineers will use programming and electronics to learn how sensors and different components interact. Exciting projects include building a motion-sensing fan, heat sensing devices, or a color-changing smart lamp, and then students can use their skills to make their own prototype gadgets.

Time: 2:25 PM - 3:25 PM (K-6)

Fee: \$140

No Class: 5/28/2018
