

**Gobar Goop:**

Gobar goop is a local formulation prepared by collecting local resources to prevent / heal tree wounds and infections.

**Ingredients required for making Gobar goop.**

❖ Cow dung	1kg
❖ Chun (Lime)	100gm
❖ Besar (Turmeric)	100gm
❖ Kharani (Ash)	100gm
❖ Tulsi (Basil)	100gm
❖ Jai Ful (Jasmine)	100gm
❖ Kurkure Grass (Horse tail)	100gm
❖ Neem oil	100ml
❖ Lavender leaf if available	100gm
❖ Rosemary leaf if available	100gm

**Methodology:**

Crush Horse tail, lavender leaf, Rosemary leaf, Jai ful and Basil very finely.

Now mix all the ingredients listed above and mix homogenously.

**Application:**

Apply as thick paste over the cut or wound on any parts of plants and also the plants infected with Gumosis.
