

The SPARKS Project

Rural income generation through high-value agriculture.

The SPARKS project is a side-shoot of EVON. The priority of SPARKS is to partner with small rural agricultural development projects and provide technical support. SPARKS' goal is to assess viable income-generating activities in agriculture in each partnering community, then provide expertise and connections to realize those goals. The long-term goal is to set up a long-term relationship between SPARKS, EVON, and each community for sustainable development.

If you or your working community are interested to partner through SPARKS, please contact Samantha Day at sam.j.day@gmail.com

(#) = # of varieties

Open-pollinated, organic vegetable seeds: Come visit our garden and see what seeds we have in store!

Everything Organic Nursery

*Private Limited since 2009.
Patalekhet, Kavre, Nepal*

Our mission is to demonstrate and teach Biointensive methods, offering new approaches and materials for organic farming in Nepal. We also specialize in grafted fruit & nut trees, especially low-chill varieties suitable for Nepal's sub-tropical climate. By promoting fruit & nut trees to rural farmers, our goal is to support their cultivation of high-value crops for rural income generation.

Trainings & Tours

Our 3-Day Basic Bionintensive Training

covers topics such as organic vegetable bed preparation, tree planting, & organic pest control. Our **3-Day Advanced Tree Care Training** covers topics such as pruning, grafting, & open-pollinated seed-saving. *See full training descriptions on our website.*

Individual trainings: Our 3-day Bionintensive Basic Training in-house once/month in Patalekhet. Check our Facebook page, or contact us.

Rural Training packages: EVON now offers Basic & Advanced trainings packaged with other services such as: site design consultation, post-training follow-up visits, access to our open-pollinated seeds and grafted tree seedlings. Contact us about designing a packaged tailored for the needs of your community and details of the site.

We are happy to arrange tours of our garden and orchards, both for individuals and groups. Two-hour tours for groups up to 15 people, in Nepali or English, are offered for 300 Rs/person, anytime Sun through Fri. Contact us to set up your group tour!
