OG = Organically Certified by Oregon Tilth

Self-Heal
(*Prunella vulgaris*)

Our seeds are all open-pollinated, untreated and not GMO'd. It's all about quality, which is why we grow our own! This "Common Name to Latin Name Seed List" is a concise reference arranged by common name. Some of the seeds are only available seasonally. Every packet gives exacting cultivation advice specific to the plant. More information is available online at strictlymedicalseeds.com, in the Strictly Medicinal® seed catalog, and in our book "The Medicinal Herb Grower." All living things thank you for contributing to the diversity of the biosphere.
