If a secondary player, what is the player's primary team?	

Notes: This form is to be used for adding new players to team rosters outside the normal registration period of June-July. The information given here will assist in the proper proration of fees for the player. When completed, submit this form to sundy@alliancefc.net. You also need to instruct your player's parent/s to complete the steps for Registration Step 1 found at _____.

After you submit this completed form *and* the player completes Registration Step 1, we will move to the 2nd step of registration and will get-the player set up on a payment plan and then create the player card for spring / fall. Players joining for any portion of the year need to complete this form.

This form should be submitted as soon as you know the player is joining and *before* any games have been played with the team. Players permanently joining a team during winter need to follow these steps as well even though a player card will not be created until spring. Players joining ONLY for winter training or league sessions still need to complete this form, so fees can be applied appropriately.
