

McGavock High School Savings Plan

As parents, we always want the best for our children. For our children as students, there are many activities available during their high school career in which they would like to participate, or things that they would like to have, in order to remember their high school experience. With the wonderful addition of the US Community Credit Union to the McGavock family, we have developed a savings plan that will guide you in helping your child afford the things that they would like to do during their time here at McGavock. All of the amounts below are estimated, and we realize that sometimes prices increase, however this should be fairly accurate, based on current information.

This information will guide you in helping your child save for the things listed above. The savings calculation assumes you would start your savings plan in September of each year and only save during 8 school months (skipping December of each year and only 5 months their senior year).
