**Community Achieves Site Coordinator:** Megan McGuire

## ABOUT OUR SCHOOL

At Buena Vista Enhanced Option Elementary School, we envision every person in our community to be a learner who exceeds expectations. To accomplish this vision, our teachers and staff practice individualized, blended learning and incorporate targeted, small-group activities. Every learning experience is crafted to enthusiastically develop the essential 21-st century skills of creativity, innovation, critical thinking, problem-solving and communication.

Our faculty and staff study individual data for each student and use that information to strategically plan instruction, measure growth and create meaningful learning experiences. Through these experiences, scholars have the opportunity to connect learning to the outside world and build a foundation for STEM (Science, Technology, Engineering and Math) careers.
