ABOUT OUR SCHOOL

Glencliff Elementary is a community-based school that strives to serve the needs of our diverse neighborhood. In addition to preparing our students for academic success, our curriculum focuses on building leadership and responsibility skills. Glencliff also has an experienced staff of loving teachers who care deeply about the emotional and academic success of each student.

Through our curriculum, extracurricular activities and love for teaching and learning, we strive to meet the needs of all of our students. Our parents notice the enthusiasm their children have about attending Glencliff. We work diligently each day to ensure that students are SOARING to the top in all aspects of their life.
