**School Board Rep:** Dr. Sharon Gentry  
**Counselor:** Tarae Manogin

## ABOUT OUR SCHOOL

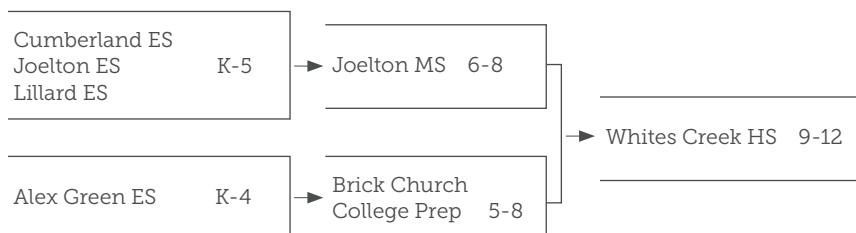

Haynes Middle Health/Medical Science Design Center is a small learning community that provides a core exploration in Health and Medical Science in a Paideia learning environment. At Haynes, we blend a liberal arts focus with health and medical science electives in a holistic and rigorous curriculum that prepares all students for high school and post-secondary education.

The hallmark of our school is the unique ability for our students to explore future science and medical careers as part of their school experience. We are the only Metro School with a health and medical focus, and our students have access to real-world and practical experiences in these fields.

## A TYPICAL DAY AT SCHOOL

Breakfast in their Classroom.  
 Check into health and medical science related "Divisions" for Advisory.  
 120 Minute Reading and Social Studies Block.  
 Students then take the two morning classes are separated by a 45-minute Enrichment period, EMT.  
 The lunch period is usually between the second and third classes, but includes lunch, recess/break, and homework help each day, providing students with time to connect with faculty and receive academic support, as needed.  
 The end of the day is designed for afternoon classes and end of the day check out.
