ADMINISTRATION

Executive Principal: Rise Pope
Assistant Principal: Carol Lampkin
School & Community Based-Support Coordinator: Katherine Kendall

ABOUT OUR SCHOOL

Museum-themed learning is at the heart of John Early. Our educators use multifaceted, innovative ways to teach our students inquiry, critical thinking, interpretation and hands-on analysis of objects. Our school offers blended learning and STEM instruction, in which science, technology, engineering and math are weaved into classroom discussions and activities. Students engage in object-based, inquiry-based and project-based learning as they work as museum curators, designers and docents in our in-house museum. In addition to museum-themed learning, We also practice the Paideia philosophy of education, which is focused on critical thinking, collaborative dialogue and open-ended questioning.
