ABOUT OUR SCHOOL

Our purpose at Stanford is to motivate, inspire and propel each member of our school family towards continuous efforts to exceed excellence as children, educators, parent-partners, community-based partners and life-long learners in a global society. It is our desire to achieve growth towards all district and state learning standards in a way that supports the child's natural brain development and curiosity.

We are dedicated to ensuring a nurturing environment where children are recognized and supported as individuals and encouraged to grow through enriching and engaging experiences. Our staff is inspired and motivated to grow every child, every day based on their unique learner profiles and personalized learning plans. Our multi-aged Montessori classrooms support a child's natural development through a carefully designed environment that is aesthetically pleasing and enticing.
