**Guidance Counselors:** Laura Lamb

## ABOUT OUR SCHOOL

Nestled in our new, spacious building in the 12th South community, Waverly Belmont is one of two Technology Demonstration Schools in the MNPS district. Not only do we offer state-of-the-art technology throughout the school building, we also boast a 1:1 ratio of technology device to student during the school day and include interactive technological learning in our classrooms.

At Waverly Belmont, our award-winning staff members practice blended, project-based and social-emotional learning to provide students with a well-rounded and individualized curriculum. We have ongoing teacher and staff development opportunities so that we can be our best to help our students be theirs. Waverly Belmont strives to ensure that every student receives the instruction they need to succeed both in and out of the classroom.
