ABOUT OUR SCHOOL

At West End Middle Prep, you will find educators who love students, love school and who teach with passion. Your students will be fulfilled as they engage in challenging academics, physical activity and athletics, fine arts, world languages, social and emotional learning, and a myriad of extracurricular opportunities offered during and after the school day.

Our teachers provide students with a high-quality educational program for developing, improving and applying knowledge and skills necessary to succeed in the diverse world in which we live. Students leave West End fully prepared for high school and on-track for college. They leave knowing who they are and how to interact with and treat one another inside and outside of school.
