Hello Future 4th Graders!

We are very excited to have you in our classes next year! 4th grade is a very important year! Get ready to learn about long division, fractions, decimals, electricity, cells, phases of the moon, the American Revolution, U.S. Government, Native Americans, poetry, cause and effect, types of writing, and many other things.

This summer is very important. Please use this time to learn your multiplication facts up to 12. We will start the year working on multiplication. It will be much easier if you already know all of your facts. Also, please read, read, **read** this summer. Wouldn't it be awesome if you go up a reading level by the time you come back?

We look forward to getting to know you and working with you so that you learn as much as possible next year. We have set high goals for you. We hope that you are ready to work hard and reach your potential. Have a great summer!

Love,

The Fourth Grade Team
