ADMINISTRATION

Principal: Robbin Masters

Assistant Principal: Derica Griggs

ABOUT OUR SCHOOL

Bellshire Design Center is a safe, nurturing and challenging school that is committed to the individual success of every child. The Bellshire team believes in working together with families and the community to support the education of our students. The staff and administration at Bellshire are partners in this important work.

Our goal is to support and encourage each child in achieving his or her potential by instilling in them an intrinsic sense of self-worth and a love of learning. We do this by having high expectations, building positive relationships and providing academic rigor. In addition to our core curriculum, we also offer a range of related arts offerings, including PE, art, computer, music and library and information science.
