ABOUT OUR SCHOOL
The Academy at Opry Mills provides a non-traditional approach to obtaining a high-school diploma. We have flexible scheduling, a non-traditional curriculum, a diverse student body and an open campus, far removed from the traditional high-school experience. We serve students ages 17-21 who need eight or fewer core course credits to graduate from high school.

The welcoming nature of the administration, faculty, staff and physical environment helps the student to feel safe in a setting that allows them to succeed. The non-traditional setting allows for individualized attention for each student. It also allows for the faculty to be very flexible with curriculum to meet the students where they are with the content.
