Parent Survey of Title I Plans
We will receive Title I funds for next school year. We may use these funds in one of two plans: School-Wide or Targeted Assistance. The School-Wide Plan is how parents chose to use the Title I funds this year based on last year's survey. We need your input as to which plan we will use for the 2019-2020 school year. Please read each plan carefully and choose the plan you would like our school to use next year. Please return this form to school.

_____ The School-Wide Plan: Title I funds will be used to improve achievement in our school. All students and all teachers have the opportunity to use the programs paid for with Title I funds. This would include items and programs such as reading and math materials, computers, books, and tutors. The funds spent focus on the areas that need the most improvement based on current data. Teachers paid with Title I funds are able to work with ALL students, particularly those having difficulty.

_____ The Targeted Assistance Plan: Title I funds would be used to improve the achievement in our school. Using this plan, only a targeted group of students would be able to use the reading and math materials, computers, projectors and tutors purchased with these funds. The Title I teachers could only work with the targeted students. Students and teachers that are not among the targeted group would not have access to the items or programs paid for with Title I funds.

The majority of Title I funds are used to hire two classroom teachers and two Instructional Specialists that work with small groups in Kindergarten through 4th grade. All are certificated, highly qualified teachers. The remaining funds spent help fund tutoring, additional technology, parent events, library books and instructional supplies as needed.

If you have additional suggestions/comments for the use of Title I funds at DuPont Elementary, please let us know on the lines below!
