School Highlights
- Teacher and assistant ratio is 1:10. We look at our assistants as co-teachers because they assist the teachers with small groups, assessments and one to one lessons.
- MNPS’ pre-K program is based on the constructivist approach, which provides diverse learning environments where activities are driven by the students, and teachers encourage and support children to play and explore as a path to learning.
- Each classroom features natural wood furniture to create a peaceful and calm environment.
- Neutral colors are used in the classroom, so that emphasis is placed on students’ work which will/is highlighted throughout the classroom.
- Each room has a classroom study, which is a 6 week study that focuses on a common theme, such as clothing or building study.
