EUROFURNITURE

2145 WEST GRAND AVENUE, CHICAGO, IL 60612

**AUTISM SPEAKS®**  
**CHIP IN**  
CASINO NIGHT

**On Saturday, November 10, 2018**, the Chicagoland Chapter of Autism Speaks will host its third annual **Autism Speaks Chip In** event, at EuroFurniture in Chicago. Please join us for this fun and festive evening highlighted by an open bar, delicious food stations, a silent auction and, of course, casino-style table games such as Black Jack and Craps. Over 400 guests are expected to attend our chapter in support of our mission to promote solutions for the needs of people with autism and their families.

As you may know, autism is a general term used to describe a group of developmental brain disorders caused by a combination of genetic and environmental influences. These disorders are characterized, in varying degrees, by communication difficulties, social and behavioral challenges, and repetitive behaviors. Autism affects over 3 million people in the United States and tens of millions worldwide.

Autism Speaks is enhancing lives today and accelerating a spectrum of solutions for tomorrow. Our *Chicagoland Chapter* is one of the first and strongest of all of Autism Speaks' chapters across the nation.

We hope you will join us to celebrate the success of the *Chicagoland Chapter* and the importance of our cause by making this year's **Autism Speaks Chip In Casino Night** event even bigger and better. We have expanded our gaming room and sponsor lounge. Please see our website at [ChipInForAutism.org](http://ChipInForAutism.org) for important information about sponsorship packages and opportunities, about ticket prices and VIP options. If you have questions, please contact **224-567-8573** or [Chicago@AutismSpeaks.org](mailto:Chicago@AutismSpeaks.org).

Thank you very much for your kindness and generosity. We look forward to seeing you at the tables in November!

Sincerely,

**Michael Redmond**

**Christine Redmond**

## ABOUT AUTISM

**Autism or autism spectrum disorder (ASD)**, refers to a range of conditions characterized by challenges with social skills, repetitive behaviors, speech and nonverbal communication. We now know that there is not one autism but many subtypes, and each person with autism can have unique strengths and challenges. Most forms are caused by a combination of genetic and environmental influences, and many are accompanied by medical issues such as GI disorders, seizures and sleep disturbances.

## ABOUT AUTISM SPEAKS

**Autism Speaks is dedicated to promoting solutions, across the spectrum and throughout the life span, for the needs of individuals with autism and their families.** We do this through advocacy and support; increasing understanding and acceptance of autism spectrum disorder; and advancing research into causes and better interventions for autism spectrum disorder and related conditions. Through partnerships and collaboration, we are committed to:

- **Increasing global understanding and acceptance of autism**
- **Being a catalyst for research breakthroughs**
- **Increasing early-childhood screening and timely interventions**
- **Improving the transition to adulthood**
- **Ensuring access to reliable information and services throughout the life span**

Autism Speaks is enhancing lives today and accelerating  
a spectrum of solutions for tomorrow.
