1-800-RUNAWAY - 1800runaway.org

Not every crisis requires a call to the police. While we wait for a response from the mayor and city council to our calls for the reappropriation of funds from law enforcement to the local community, here are some alternative resources that will help to lessen the necessity of the police and protect vulnerable populations from state-sanctioned violence.

By reassigning responsibilities, we can work to delegitimize the police apparatus while building a stronger community run for and by the people. Together we can address issues that arise without criminalizing and harming those who just need help. We will be expanding this list as we receive new information.

Sometimes you do need the police for insurance purposes such as in the event of a burglary or car theft. For these situations you should call the non-emergency line: 206-625-5011
