Our Mission

-associated black charities is a public foundation that facilitates the creation of measurably healthier and wealthier communities throughout the state of maryland through responsible leadership and philanthropic investment.

about associated black charities (ABC)

since its founding in 1985, ABC has been dedicated to creating strong, healthy, and economically viable communities in order to create a better life, especially for african american children and families. ABC is the region's only african american philanthropic organization providing coordinated leadership on issues impacting Maryland's communities of color. for the first 20 years, Associated Black Charities was widely recognized as a catalyst for community development that provided funding, technical assistance and service coordination to non-profit organizations, serving the needs of Maryland's African American communities. Initially, Associated Black Charities opened its doors with donated offices, a United Way sponsored planning grant of $100,000, and 45 leadership volunteers. today, Associated Black Charities has a respected 13 member fiduciary board of directors, 25 full-time staff persons, over 11,000 contributing donors, and an operational budget of almost $21 million. Associated Black Charities' geographical area includes several parts of the state, including Baltimore City/County, Prince George's County and the Eastern Shore.

in recent years, ABC has also understood the value of investing in the growth and capacity of community and faith based organizations to make a sustainable difference. Today, Associated Black Charities is strategically addressing a new urgency dictated by the economic and social climate, and is leading a new charge to close the health and wealth gaps that put so many African American families at a disadvantage in achieving the American dream. This same disadvantage places all Marylanders at risk economically regardless of race. ABC seeks to achieve its mission through:

- Organizational Infrastructure
- Strategic Initiatives
- Grantmaking
- Educate/Inform Public Policy
- Partnerships
- Strategic Philanthropy

Using these tools, ABC seeks to eliminate the health and wealth gaps that impair the economic health of households in Maryland.
