**WELFARE:** Ms. Hurteau explained that in years past, residents donated $25 gift cards to be distributed to residents seeking food pantry assistance to enable them to buy milk, eggs, bread or other perishable items that cannot be stored in the food pantry and she gave out the last card a week ago.

Ms. Hurteau asked the Board for permission to write a check from the Welfare budget to purchase gift cards for residents in need.

Both Chairman Pettinato and Mr. Lyons agreed to the purchase and Mr. Poelaert agreed and suggested purchasing eight $25 gift cards for the total amount of $200.

**WASTE MANAGEMENT:** Mr. Peter Lachapelle of Waste Management met with the Board at 6:45PM to discuss the Town’s recent bulk pick-up, which was scheduled to be conducted on Monday, May 21, 2018, but was unable to be completed until the end of the week for reasons beyond the control of Waste Management.

Mr. Poelaert stated it seems the bulk pick-up got out of hand with the volume of items placed curbside by residents and the Town requires the purchase of stickers for white goods pick-ups, but not for bulk pick-ups and although in the past he personally disagreed with the sale of stickers, it may have to be implemented to prevent abuse of the pick-ups.

Mr. Lachapelle explained the pick-up took between 3 ½ to 4 days when it should have taken 1 day with 2 trucks. He added he had no numbers, but he believes the total tally will be 50+ tons when in past years the pick-up would have yielded 8 to 10 tons.

Mr. Lachapelle continued they were having the same issues in Middleton, NH and created 65 tons that required 8 trucks to pick it up and they eventually went to stickers costing $10 per item and reduced their pick-ups to 11 tons. He added one home had 5 mattresses and 7 sliding glass doors and it was obviously abuse of the pick-up by a contractor.

Mr. Lyons asked how it would work with stickers and Mr. Lachapelle responded other towns have allowed one free item per household then they would purchase $10 stickers for the additional items. He added they should plan on this for next year as the flyers are already out for 2018, so they can include the new program in the flyers sent to each home in 2019.

Mr. Lachapelle discussed recycling and informed the Board that previously, China was importing 50% of the recycling from this country, but now do not want to import much of the plastics and mixed papers produced, adding China also has a .5% contamination quota and many people mix their recycling with household trash, which causes entire loads of recycling to be rejected.

Following further discussion, it was determined the Board will meet with Mr. Lachapelle again in September or October and plan for a new program in 2019.

The Board thanked Mr. Lachapelle for meeting with them and he left at 7:17PM.

**BRIDGE REPLACEMENT:** The Board reviewed email correspondence dated May 29, 2018 from Mitchell Bois, Project Manager, CPM Constructors in regard to the upcoming bridge replacement project (NHDOT Bridge #26942, NH Route 107A over Pan Am Railway & Troll Way, East Kingston).

CPM is requesting permission for the removal of several trees located adjacent to the existing bridge and on Town property, which they say is critical to the bridge demolition and erection of the new bridge superstructure and further without that access they do not have proper access for their cranes. They also provided a map and pictures depicting the locations of the trees.

CPM reports there a few options for the property following completion of the construction as follows: 1. Loam/seed the cleared area or install bark mulch, 2. Leave it as a gravel access road or 3. Plant some young trees and shrubs to fill in the area.

It was noted the road will be shut down on Tuesday, June 19th, which will begin a 28 day road shutdown period.
Mr. Poelaert noted the public beach is blocked as well as access to one property and the contractor was asked not to block access.

Following further discussion, it was determined the Board will take no vote pending a site visit and requested Ms. Hurteau ask the contractor to mark the trees in question so they will be easily identifiable.
