

## **A Community's resolution for 2018: To Revitalize Starlight!**

The day after Christmas, a small group of volunteers donated their time, energy and Holiday cheer to spruce up Starlight!

Our grassroots initiative allows everyone in the community to contribute. Whether it's with your time, skills, or money; everyone has the opportunity to make a difference in saving this valuable community asset.

## Local Businesses Making a Difference

Special thanks to our friend Mike Bryant Plumber/Owner of [PLUMB365.com](http://PLUMB365.com) for donating his time and services to help us repair the restrooms inside the concession and ticketing booth building!

We'd like to invite our community to help out Starlight just like our great friend Mike did!

We're ready to get our hands dirty beautifying the concession and ticketing booth building and move our offices into our new home at the Starlight Bowl, but we're going to need help with the following:

- **patching supplies**
- **flooring options**
- **paint**
- **furnishings**
- **carpet removal**

So if you or anyone you know can help us out, please contact us at [info@savestarligh.org](mailto:info@savestarligh.org)

Donations from local businesses and corporations are welcome!

**Our December Nights Stage was a taste of what we envision: A place where community talent can shine!**

December Nights was a celebration of diversity in talent across our community. Our stage became an exclamation point to our vision for year-round events at Starlight Bowl.
