

Milan

Riccardo Giannelli Viscardi

My name is Riccardo Giannelli Viscardi and I am in the Pandion Partners Group and in the Milan office since its foundation.

I started my career at Roland Berger & Partner, one of the main management consulting firm in Europe, with headquarter in Munich. I joined the company as Junior Consultant, and I left as Senior Consultant / Project Manager.

I have since then been in the Milan office of Pandion Partners, where I worked in projects in several industries: manufacturing, automotive components, packaging machines, professional cooking appliances, food and beverage, apparel and fashion, business and financial services and Private Equity.

I sit in the board of Blue Dream Srl, a company which I founded some 10 years ago. We successfully introduced in Italy the See Doo range of products of the Bombardier Group becoming market leaders in Italy. We then expanded our range of products also to electric bicycle, ATV and other leisure time products.

I hold a degree in Business Administration from the Università Commerciale Luigi Bocconi of Milan.

Before then, I studied in Oxford, UK, where I obtained the International Baccalaureate.

In my free time I practice several sports such as skydiving, sailing, tennis and rowing (in the Venetian way on Gondola).

My main interests are for arts and architecture, both classical and modern/contemporary and Murano glasses of the period from 1920/30 to 1960.
