

JOSEPH TONDRO-SMITH

307.203.5150 - JOE@WILD4NATURE.COM - IMAGESMITHSTUDIO.COM

I'm a graphic designer/photographer based wherever I have wifi. I've worked with private businesses and for individuals within several media industries. My specialties include art direction, shooting product photography, designing marketing material- such as catalogs, brochures, banners and flyers, and social media graphics. My favorite projects are print design based, however I also enjoy graphics for web use and custom illustration. I love what I do and truly take pride in creating a high quality product as well as working within team groups, all the while providing great customer service to all of my clients.
