## EXPERIENCE

### **Regional News Network, Senior Graphic Designer**

SEP 2016 - Present

Produces on-air graphics packages/elements for RNN shows/properties. Conceptualize, design, and animate graphics for new programs and initiatives as needed. Implement goals of the marketing and promotional departments into visual branding. Translates graphic requests to brand strategy and convert into quality design.

### **Driver Digital, Editor/Motion Graphics Artist**

JUN 2015 - SEP 2016

The lead artist on Nickelodeon's web series for their new show "The Other Kingdom". Responsibilities include editing video and audio, designing assets for animation, creating captivating motion graphics and resolving any issues with respect to brand guidelines. In addition, I create short promo videos for Nickelodeon's other social media platforms with regard to news, the cast and updates to "The Other Kingdom".

The manager on Dream Mining, a brand targeted at the tween demographic with supportive clients such as Nintendo, Disney, Mattel, American Girl and more. As the manager, I oversee production by maintaining schedules, writing copy, reviewing video work and communicating ideas between video staff. I also assist in all stages of production from idea generation to final product delivery.

### **Fleishman Hillard, Creative Specialist**

OCT 2013 - JUN 2015

Animator, editor, videographer and designer for the "Content Studio" at Fleishman Hillard for clients including AT&T, Bunge, Pantene and Cover Girl. Created videos for AT&T's award winning device launch video series. Responsibilities included filming, editing, motion graphics, 3D modeling and animation, closed captioning and HTML skills for video upload.

Designed infographics and powerpoints such as L'Oreal's "Women of Worth" campaign and SAP's product and innovation research team. Created content and presented on behalf of our team that resulted in winning new business for the firm.

### **Magnet Media, Associate**

AUG 2013 - OCT 2013

Designed commercial templates for Time Warner Cable from concept to completion. Responsibilities included a strong amount of motion graphics work in After Effects and designing assets to animate in Illustrator and Photoshop.

Brainstormed with the creative team to develop concept for projects. Drawing storyboards and detailed shot divisions for video and animation. Presented ideas for our creative team to the directorial staff.
