To whom it may concern

This letter is to confirm that Vipa Designs Ltd, adheres to a strict policy of using only “conflict free minerals” in all of our products

We confirm that no newly mined material is used within Vipa Designs production with all our precious metals coming from 100% recycled material through our suppliers refining.

Our Metal supplier’s internal processes include a batching system using SKU numbers to track all incoming material and they adhere to ISO 9001 & 14001 policies and procedures. In addition, our suppliers are certified members of the Responsible Jewellery Council (RJC) and can thus ensure that our and their precious metals are produced in a socially correct as well as ethically and environmentally sound manner.

Yours Sincerely

A handwritten signature in black ink that reads "Ben Crump".

Ben Crump

General Manager

Vipa Designs
