Oklahoma Rural Development
State Director
Kenneth Corn
What does the program do?

• Designed to support targeted technical assistance training and other activities leading to the development or expansion of small and emerging private businesses in rural areas.

• No maximum grant amount for enterprise or opportunity type grants; however, smaller requests are given higher priority.

• Matching funds are not required, however leveraging can increase an application’s score.
Who is eligible?

- Rural public entities must apply on behalf of the small business and those include towns, communities, state agencies, authorities, nonprofit corporations, institution of higher education, federally recognized tribes and rural cooperatives.

- The small business being assisted must be in a population of less than 50,000.

- Small and emerging businesses are those with less than 50 employees and less than $1 million in gross revenue.
How may the funds be used?

- Enterprise grants must benefit small and emerging businesses with, acquisition or development of land, construction, renovation, equipment, etc.
- Opportunity grants must be used for community economic development, training, feasibility studies and business plans, rural business incubators, etc.
