"My five-year-old absolutely loves Lady Bug Band! He asks to play it just about every day. He never tires of the interactive features and giggles at the funny sounds and characters. It's a really sweet app that's both fun and educational – I highly recommend it!"

"*Pass a Present* is so much fun! My kids sent photos of their own art to Grandma, along with a voice message, and they loved picking out the wrapping paper and signing their name on my phone. I may never need to buy a greeting card again."

-Stephanie, mother of four

"The *One Present, Please* app is delightful! My kids thought it was a lot of fun and I love that it is literacy based (reading, rhyming). Each day there is a sweet surprise waiting for them and they can't wait to see what it is! For sure a great addition to the holiday countdown."

-Jenny, mother of three

-Charlotte Pickard, Second Grade Teacher

"*One Present Please?*" is a wonderful multidisciplinary app that incorporates music, fine motor skills, language and math, covering many areas critical to helping a child develop. It's a challenging exercise for a child, combining fun. with problem solving. And the true meaning of Christmas is beautifully illustrated and taught when, at the end—after successfully playing the games—kids are encouraged to give to others. I plan to gift my young grandchildren with '*One Present Please,*' a delightful experience."
