Driven BY DESIGN

We’re iconic and a bit ironic. We’re TONIK! We’re a hospitality furniture brand wrapped around a full blown design statement that pushes beyond boundaries and transforms everyday spaces into funky slices of paradise that connect people. So take a trip. Take a dip. Take a sip. The world is a lot more interesting with a splash of TONIK.

Visionary and prolific, Karim Rashid is one of the most unique voices in design today. With more than 4000 designs in production, nearly 300 awards to his name, and client work in over 40 countries, Karim’s ability to transcend typology continues to make him a force among designers of his generation. And he’s a pretty slick dresser with cool tattoos to boot.
Here’s a page that tells you what page stuff is on. It’s called a Table of Contents. But we have chairs, stools, planters and other things, too.

According to Wikipedia, Goby “are fishes of the family Gobiidae.” Gobi is also a desert within China and Mongolia. Neither one inspired the name of this collection, but we regress and present to you this series of products that embodies organic simplicity. This modular lounge seating with a curvaceous signature shape has interplay of concavity and convexity, bringing optimal comfort and a revitalizing pop of color to any space. We have upped the style quotient by having a single tone version or adding a secondary color to the front interior.

Swizzle™ Stool

Swizzle you spin me right round baby right round like a record. Longing for the days of 80’s hair bands, we made a nonconventional stool that is twisted in a good way. Full of motion, the collection embodies both movement and perfect balance. Its easy-to-grip ridges make it a breeze to carry and puts a new spin on seating. So lets go grab some cassettes and make a mix tape.

Riptide™ Seating

Nooooo, we did not steal this name from an oh-so-popular 2014 song (#MaybeWeDid). Despite that, Riptide is a modular bench seating system composed of three primary shapes capable of endless configurations. Seats, and Wishbones, and Benches, oh my. You can write your name and even draw an outline of a baby Unicorn with it. How cool is that? Once you’ve configured your masterpiece, keep it together with optional ganging plates. And by the Power of Grayskull, you can opt for added USB ports to charge digital devices when using the product indoors.
This is Jux the beginning. Truly elegant, our interpretation of bar sets feature stretched and continuous shapes that are folded and flared. Deceptively simple at first glance, the Jux collection contains great complexity. Like a fine wine. But we aren’t picky. We drink the cheap stuff, too.

In Africa, some people wear a colorful garment called a Kanga. That has absolutely nothing to do with this product, but don’t you feel smarter now? Our Kanga, on the other hand, is a stool/side table with a sense of movement even when it is still. Kanga’s center “pouch” shields drinks and phones from the sun, for those rare moments when you aren’t sipping on a cold drink and scrolling through your Instagram feed.
Dimple™ Stool/Planter

Dimple is a multi-use marvel with a super cute name that yells “take me home.” Flipped on one side, it is a stool. Flipped to the other, it becomes the perfect planter. Its “dimples” on the side invite you to link them one to another, creating a connected row of multi-functional pods. Like our pitch man with a deep voice says, “Dimple, a product that has more than just a cute name.”

Meet Dottie, our mascot. Maybe you herd about her. Our designers thought the boss yelled “Holy Sheep” from his office once and they got right on it. Yeah, we know, right? This cute little sucker exudes character and friendliness. Its bulbous puffs and bright, outgoing colors make it the ideal conversation piece.

See where she’s flocked to and add your own photos on social media. #WheresDottie
Are you ready to rock? Welcome to the stage, Huey! This product is an ultra-modern take on the timeless concept of the rocking chair. Its bold curves and seamless motion shred like a blistering guitar riff. Man, this chair definitely has design chops and a killer molded shape. Whether you prefer our 18” seat height or our more petite frame friendly 16” version, with Huey you will definitely rock your night away.
