

Neil Young

There was a heartbreak  
There was a darkened path  
There was confusion  
She refused to ask

There was a guidance  
A helping hand  
To bring her to the coast  
Eastward bound

(Bridge)  
Through these waters  
I move  
With an injured sail  
Don't worry  
I'm coming home

(Chorus)  
and find who I am (4x)

They spoke about it  
Why are we here  
What is our purpose  
Can you help me to get clear

I don't know how to talk about it  
To get through to the most high  
And I know I'm not all about it  
But I don't know what else to try

Chorus  
Instrumental

My heart beats for it  
I cry out to the night  
Mother moon lead forward  
Past the days in which I die

And know who I am (4x)
