

Been Waiting

Take me back my true love
To that place we came from
Where no more questions lie
Hidden by our minds eye

I've Been Waiting

Wait

In the year '44
She came round to his door
Heart in hand destined from
A lifetime search for the one

(Chorus)

I won't take that strength away from you

I won't cry wolf anymore

For the sake of your heart's call

(Instrumental)

On the floor in hotel rooms
Lies a boy unperfumed
Not alone, but not in love
Only breath, he looks up

(Chorus)

Raise Your Glass
Time Can't End us
Raise Your Glass
Time Can't End Us
