What should a Coronavirus Standards Working Group do?

- Assure development and availability of standards, controls, interlab testing, knowledge to support successful rollout & scaling of 2019-nCoV testing

- Identify and develop critical infrastructure to support... confidence in test results, interoperability, scale-up, long-term capacity

- Identify best practices that should be institutionalized

Learn what we need to do next time we have a global network in place ready to make standards.
