Coronavirus Standards Working Group
What should a Coronavirus Standards Working Group do?

- Assure development and availability of standards, controls, interlab testing, knowledge to support successful rollout & scaling of 2019-nCoV testing
- Identify and develop critical infrastructure to support confidence in test results, interoperability, scale-up, long-term capacity
- Identify best practices that should be institutionalized. Learn what we need to do next time we have a global network in place ready to make standards.
26 June Agenda

• Quick Updates
• Translational Science – John Sninsky
• Letter re: Contamination with positive controls – Jim Huggett, Marc Salit
“How Translational Science can help now and make us ready for the next one.”

John Sninsky,
Translational Sciences Consultant

An enterprise perspective on the role of diagnostics and the infrastructure to get them right.
The world is a dilute solution of SARS-CoV-2 Positive Controls
All other business

What we can plan for in July
Can formalizing governance of the CSWG make it better? more sustainable?
