WHAT SHOULD A CORONAVIRUS STANDARDS WORKING GROUP DO?

- Assure development and availability of standards, controls, interlab testing, knowledge to support successful rollout & scaling of 2019-nCoV testing

- Identify and develop critical infrastructure to support confidence in test results, interoperability, scale-up, long-term capacity

- Identify best practices that should be institutionalized

Learn what we need to do next time we have a global network in place ready to make standards.
7 AUGUST AGENDA

• Slack logistics
• CAP SARS-CoV-2 proficiency testing survey results and the call for a reliable, commutable international standard; and Notes from the Field on establishing and operating a high-demand clinical laboratory.
  • Bobbi Pritt, CAP and Mayo Clinic
GETTING BACK ON SLACK

• Our CSWG Slack workspace is now hosted as a part of the Stanford Slack “Grid”
• Those without a Stanford email address will log on as “guests”
  • you’ll have the same privileges as before
• If the instructions on the right of this slide don’t work, please email
  • slack-migration@lists.stanford.edu

• Go to
  • https://coronavirus-stds-wg.slack.com/home
• Log in as a Guest (“I have a Guest Account”)
  • NB – the dialog will still be asking you to log in to Stanford
• Click "I forgot my password"
• A Password Reset dialog will appear and invite you to enter the email address you've been using to log in to the Slack workspace. You will receive a reset link in your email.
