STRIKE THREE

Relaxing in lavish surroundings is the ultimate aim of any luxury getaway. Luckily, Finnish interior design company Kudos Dsign has created three unique hotels that fit the bill. Starting in Stockholm, Hotel With has been built underground, offering 106 soundproof en suites with no exterior walls or windows, giving guests some respite from the city's bustling Urban Deli located above. At the other end of the scale, the Resorts World Bimini in the Bahamas reaches new heights with a rooftop pool (pictured) in which guests can enjoy the swim-up suites. Completing the collection is the Burj Al Arab hotel's recently unveiled Terrace in Dubai, encompassing pools, cabanas and excellent restaurants. The only question that remains; which one will you choose?

Hotel With in Stockholm from £205; Resorts World Bimini in Bahamas from £115; Burj Al Arab in Dubai from £900
