

Curley School Artisan Housing

Artist (includes artisan and crafts person):

A person who by virtue of imagination and talent or skill repeatedly creates works of aesthetic value

Notes:

An artist is distinguished from a hobbyist (or one who pursues art or craft as an avocation) by one or more of the following: having a body of creative work, having presented creative work publicly, having taught creative work, making a living from creative work

Illustrative examples of artists: painters, sculptors, musicians, actors, photographers, glass blowers, dancers, potters, chefs, writers, basket weavers, and furniture makers, with the understanding that they are doing original work as opposed to producing work by actualizing someone else's design, pattern, recipe, etc.
