## IN A MEDICAL EMERGENCY

If possible ask guest if they need an ambulance - if not call 911 for an ambulance. A host should accompany the guest to the hospital. If a sufficient number of hosts are not present to permit one to go to the hospital, call the back-up volunteer or congregation coordinator to accompany guest or meet guest at hospital. The accompanying host or backup volunteer must report back as soon as possible concerning medical status and arrangements.

Use the Incident Report form to report the emergency to the FFH Program Director, Chrissa Percival

**FIRST AID KIT: Located in Kitchen in cabinet above the stove.**

**AED LOCATION: Outside of Nursery Door.**
