

MARKET CITY WINE MERCHANT

EST 1987

Market City Caffe proprietors Chipper Pastron and Sal Casola Jr. have developed many meaningful relationships with other winemakers, cellar managers and distributors since launching their Napa Valley winery, Vanishing Point Winery, in 2010 with the Vanishing Point and Squirt Gun labels. As a result, these relationships have allowed them to receive remarkable deals on a wide variety of wines.

Chipper and Sal want to share their love of wine with our guests by passing on these deals to you.

While most restaurants mark up their wines by three - or even four - times their cost, we aim to price all of our bottles at the lowest possible mark up.

This is the driving concept behind Market City Wine Merchant: inviting our guests to explore our exceptionally curated wine list with the confidence that they are being offered at the best prices we can offer.

In addition, we also want to encourage our guests to purchase any of the outstanding bottles on our wine list to take home and enjoy with friends and family. So, as part of our Market City Caffe community, we'll take an additional \$5 off the wine list price for bottles purchased to take home.

We hope you will take advantage of this incredible opportunity by trying all of the wine the Market City Wine Merchant program has to offer. Cheers!
