Seeking innovations to prevent child abuse and neglect

Updates From Our Fellows

Across the country, our current and former fellows are taking exciting steps in their work in child well-being and the prevention of child maltreatment. In this newsletter, we would like to share some of our Fellows' latest projects, positions, and achievements!

Since so many Fellows have written to us about their accomplishments this year, we will continue our Fellow Updates in next month's newsletter as well.

Two of our fellows, [Carlomagno Del Carmen Panilio](#) and [Sheridan Miyamoto](#) will be collaborating as part of the [Network on Child Protection and Well-being](#) at the Pennsylvania State University. Carlo accepted a position as an assistant professor in the Department of Educational Psychology, Counseling, and Special Education. His research will focus on understanding the mechanisms that link maltreatment and later life outcomes. Sheridan accepted a position as an assistant professor in the College of Nursing, and her research will focus on utilizing administrative databases to improve predictive risk tools to identify families at risk of recurrent subsequent serious maltreatment. Another area of research she is pursuing is the use of telehealth to improve forensic care for children in rural communities.
