

PUBLISHED BY ALLIANCE FOR THE PRUDENT USE OF ANTIBIOTICS (APUA)-NEPAL

Editorial...

This is the fifteenth newsletter that APUA-Nepal presents you with. We hope that this newsletter will help us all in its small way, to not lose our focus from ever increasing problem of bacterial resistance.

APUA-Nepal intends to bring out its newsletter regularly to update our valued members about its activities, recent scenario and advancement in the field of antimicrobial resistance. We will indeed be grateful if you could contribute in any way possible by your suggestions, advice and comments.

We also like to request anyone working in the field of health profession to join us, to become member of APUA-Nepal.

We like to thank everyone who was involved in bringing out this newsletter.

Lastly, we intend to present this newsletter to our readers as a Dashain greetings. So, please accept our Dashain and Tihar greetings.

COMPARATIVE STUDY OF SENSITIVITY PATTERNS OF COMMON ISOLATES IN TRIBHUVAN UNIVERSITY TEACHING HOSPITAL (TUTH)

APUA- Nepal published antibiotic sensitivity patterns of common isolates in urine, blood and pus samples from different hospitals (regional, zonal and medical college teaching hospital) of Nepal in its Newsletter published from 2004 to 2017. The average sensitivity percentage from TUTH is compared with average sensitivity percentage from the same hospital, published in vol 13, 2016. The average sensitivity percentage in isolates from May to July 2018 from the hospital are calculated and included in this report. The results show differences in sensitivity patterns of isolates and use of antibiotic discs for sensitivity testing.

Source: Mr. Hari Prasad Kattel, Dr. Shovita Shrestha, Ms. Sujina Maharjan and Mr. Kamal Shrestha, Department of Microbiology, TUTH, Kathmandu.

Urine Isolates

Antibiotic sensitivity	% isolates sensitive May - July 2016 (n= 543)	% isolates sensitive May - July 2018 (n= 531)
<i>E. coli</i>		
Amikacin	89.0	92.0
Ampicillin	22.0	26.0
Ampicillin + sulbactam	68.0	80.0
Amoxicillin + clavulanic	42.0	37.0
Cefepime	82.0	76.0
Cefixime	48.0	43.0
Cefotaxime	48.0	DNU
Cefoperazone + sulbactam	87.0	85.0
Ceftazidime	82.0	96.0
Ceftriaxone	48.0	43.0
Ciprofloxacin	55.0	46.0
Chloramphenicol	93.0	93.0
Colistin	100.0	100.0
Cotrimoxazole	46.0	45.0
Doxycycline	90.0	81.0
Gentamicin	72.0	85.0
Imipenem	92.0	93.0
Levofloxacin	64.0	73.0
Meropenem	93.0	94.0
Nitrofurantoin	81.0	80.0
Norfloxacin	57.0	41.0
Ofloxacin	DNU	DNU
Piperacillin	DNU	DNU
Piperacillin + tazobactam	88.0	85.0
Tigecycline	100.0	92.0

DNU= Disc not used

ACTIVITIES BY APUA-NEPAL IN LAST ONE YEAR

- Publication and distribution of Vol. 14 of APUA-Nepal Newsletter to different medical colleges and hospitals.
- In March 2017, a meeting on Expert Consultation on Health Workforce Education and AMR Control, organized by WHO in Geneva was participated by President of APUA-Nepal.
- APUA-Nepal participated three meetings of Steering Committee for prevention and control of antimicrobial resistance to discuss AMR Action Plan Nepal held by Ministry of Health and Population (MoHP). APUA-Nepal is a member of National Alliance and a Steering Committee for prevention and control of antimicrobial resistance, constituted by MoHP.
