Taiwan's China Dilemma

Contested Identities and Multiple Interest's in Taiwan's Cross-Strait Economic Policy

by SYARU SHIRLEY LIN

China and Taiwan share one of the world's most complex relationships. Although similar cultures and economic interests promoted an explosion of economic ties between them since the late 1980s, these ties have not led to an improved political relationship, let alone progress toward the unification that both governments once claimed to seek. In addition, Taiwan's recent Sunflower Movement succeeded in obstructing deeper economic ties with China.

Taiwan's China Dilemma explains the divergence between the development of economic and political relations across the Taiwan Strait through the

interplay of national identity and economic interests. Using primary sources, opinion surveys, and interviews with Taiwanese opinion leaders, Syaru Shirley Lin paints a vivid picture of one of the most unsettled and dangerous relationships in the contemporary world, and illustrates the growing backlash against economic liberalization and regional economic integration around the world.

“Borrowing from an eclectic range of approaches, Lin sidesteps static binaries and moves the study of cross-Strait economic relations onto new, more fruitful ground.”

—Shelley Rigger, Davidson College

SYARU SHIRLEY LIN is a founding faculty member of the graduate program in Global Political Economy at the Chinese University of Hong Kong. She received her A.B. from Harvard College and her Ph.D. from the University of Hong Kong. She was previously a partner at Goldman Sachs, where she was responsible for private equity and venture capital investments in Asia.
