

FOR IMMEDIATE RELEASE:

Coyle Supply announces new Kansas City, Kansas location

Coyle Supply, Inc. has opened a 4th location in the industrial heart of Kansas City, Kansas.

The branch is strategically located to serve industrial process customers and will stock malleable stainless steel, forged steel, PVC and CPVC materials.

“Our business truly is about service,” said Branch Manager Kent Beltram. “That means providing a wide range of materials and solutions in a timely manner. With an average of 27 years of experience, our sales staff is prepared to provide both.”

Coyle Supply’s Kansas City location, which has a sizeable indoor pipe storage area, is open 8 a.m. to 5 p.m. Monday through Friday - also available for emergency service 24 hours a day.

Coyle Supply has proudly served customers for more than 30 years. The company assists in nearly every process piping application, including power generation, chemical plants, oil and gas refineries, mining and manufacturing, food and beverage and OEM customers.

Coyle Supply is a leading distributor of more than 100 manufacturers of pipe, valves, fittings, actuators, steam specialty equipment and more. In addition, the company has a certified valve automation center (C-VAC) where it fabricates, assembles and tests all valve automation packages. Its headquarters remain in Granite City, Illinois, and its two other stocking facilities are located in East Alton, Illinois, and Springfield, Missouri.
