CARAPAX AQUACULTURE ANCHOR BUOY

An anchor buoy especially developed for mooring aquaculture farms. The buoy has a tough plastic foam body covered with a layer or UV-stabilized plastic. A steel pipe runs through the whole buoy connecting the top and bottom anchor points. Stainless steel top and bottom. Available in 200 L, 300 L, 500 L and 800 L versions. Standard colour is yellow or black but any colour can be made to order.
