

NINEBYFOUR

This is NINEBYFOUR.

Ninebyfour is a sustainable minimalistic LED lamp, hyperlocally sourced and crafted by Waarmakers Studio in Amsterdam.

The material used is characteristic for the City of Amsterdam; Dutch Elm. In no other city this beautiful tree is represented in higher numbers.

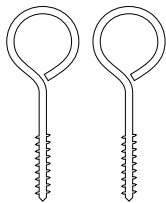

Every now and again one of these wooden citizens has to be cut down. Out of a single piece of this extraordinary material we craft NINEBYFOUR.

Each trees' inner city origins are subtly engraved.
Each piece is unique.
