Housing: The body of Delta Flood Light series is made of aluminum with an anti-corrosive coating to protect it in caustic environments, such as salt spray in marine applications. The acrylic optical plate has a high-impact resistance, and the luminaire is sealed with resilient gasketing to prevent ingress.

Mounting Options: Available options include the standard yolk mount, as well as slip-fitters in order to adapt to other mounting requirements.

Optics: Three different beam angles are possible without any change to the physical housing structure. Also available is a shield for additional cut-off of beam angle to mitigate light trespass.

Electrical: The Delta Flood Light comes standard with a high-performance driver that goes from 100-277V, power factor of 90%+, internal to the fixture.

Warranty: Five (5) year warranty on entire system. For more details on warranty conditions, please contact factory.

Lumen Maintenance: The lumen packages are rated for 50,000+ hours (L_{70}).

Certifications: UL certified to UL1598.
